

ALL A MISTAKE.

We have labored for a long time under the innocent hallucination that agricultural societies were intended chiefly for the benefit in small measure, and honor and pleasure of the tillers of the soil. But we believe we have been benighted. We are led to these remarks by the strange course pursued by the officers and managers of our State Society. During all the grand preparations and flourish for the show commencing on the 4th of next month at Reno, we of the principal farming county of the State have not received a word of information from the proper source concerning anything relating to the Fair; but the gamblers and sharpers and horse jockeys of Virginia and Eastern Nevada have been flooded and importuned by circulars and handbills and elaborate newspaper advertisements in these localities give this class a reputation of information about the coming Nevada Agricultural Society's Fair. Perhaps the thimble-riggers and bondsmen will make the Reno show a success without the presence of the legitimate element of such exhibitions; but it does seem to us that some recognition should have been made of the workers in the broad fields of the only almost exclusively agricultural County of the State. Not one farmer of our rich County, through any courtesy of the Society's officers, knows when the Fair is to be held, or hardly where, or what the premiums are, or what for. We complain that this oversight on the part of the Society's officers is an indignity cast upon our people. If we predict that the roughs capture the whole concern and run it, no one need be surprised if we shall have prophesied correctly, but that fact would not afford us satisfaction.—*Carson Valley News*, 25th.

We copy the above for the purpose of telling our good friends of Douglas county that no slight was or is intended them. Circulars and handbills have been sent broadcast telling all about the Fair, and if the Managers have not sent the Carson Valley folks a supply it is entirely unintentional. The produce of that county will be welcome to a place for exhibition, and any who may visit us will have the best treatment we can give. Come and welcome, and we promise you will go home satisfied that the Fair has been a decided success. The *News* labors under a grand mistake when it thinks that the roughs will "run" the Fair. Every precaution will be taken to enforce peace and quietness. All lawlessness will receive prompt punishment at the hand of our vigilant town and county officers. So come and bring along the best you have got, so that all can see what the State of Nevada produces—for this is the cardinal point to be attained at the Fair.

THE BANK OF CALIFORNIA.

The business preparatory to resumption of payments by the Bank of California is rapidly drawing to a close. The organization of the subscribers to the fund in aid of the Bank has been made effectual with Senator Sharon as President. We understand that the Bank will probably reopen next Thursday or Saturday, or Monday at the latest, with \$3,500,000 in gold in the vaults. There are \$2,000,000 already on hand. Twenty per cent. of the amount subscribed to the aid fund is called in, which will realize within two days \$1,500,000, which, in addition to the amount on hand, will make up the amount required. This amount will be far in excess of any demand that will be made on the Bank when it reopens.

The Board of Equalization of Eureka county have raised the valuation of the Central Pacific Railroad in that county from \$6,000 to \$10,000 per mile. The town site of Palisade, given in by the Contract and Finance Committee of the Central Pacific Company, was also raised from \$1,500 to \$5,000.

The Shah of Persia has sent to the city of Paris a very handsome edition of the journal compiled by him during his trip through Europe, and which contains his impressions concerning the manners and civilizations of the countries he visited. The volume addressed to Paris is a manuscript of two hundred and eight pages, on parchment; it is a marvel of calligraphy. The binding is in blue velvet, ornamented with precious stones.

President Grant on the Political Situation.

The Boston *Transcript* has the following special dispatch from Long Branch: "There is good authority for saying that President Grant is well pleased with the present political outlook. For the past few days the President has abandoned the reticence for which he is usually remarkable and has not hesitated to express his views of current events freely among his friends.

The President insists that there can not be any doubt as to the position of the Democratic party on the currency question. If in power in Congress and in the Presidential office they would repeal all laws interfering with the limitation of the greenback issue; they would violate the pledged faith of the nation and propose to pay the Government bonds in rag money.

Under all circumstances President Grant believes the people will be compelled to recognize the Democratic party as the party of inflation and repudiation, and the Republican party as the friend of resumption and of the preservation of the national honor and credit. The issue of next year's campaign, says the President, is already made and has already been chosen by the Democracy.

In his message to Congress, when a Democratic House of Representatives will have the privilege of considering his recommendations, he will set forth as strongly as he possibly can the depressed and suffering condition of the business and commerce of the nation, and will direct attention to the necessity of taking measures to establish the currency on a sound basis by preparing for resumption under the existing law in 1879, to which he will say we alone can look for a restoration of confidence and credit and a revival of trade.

He will enlarge upon the necessity of increasing the national revenues as a preliminary to resumption. He will to that end recommend the restoration of the duty on tea and coffee, by the abolition of which the Government has lost from \$20,000,000 to \$25,000,000 a year without any benefit to the consumer; the taxation of all articles of foreign manufacture, and probably the abolition of the entire free list.

In addition, the President will probably suggest such an amendment of the Legal Tender Act as will require the payment of all internal revenue duties in gold, as a further provision for resumption. The President will make it clear in his message to Congress that he intends to practically carry out the duty imposed upon the Government by the Resumption Act, by proceeding to contract the present greenback issue to the limit allowed by the law. Upon this point, more than any other, he relies for the support of the moneyed interests of the country in the Republican Presidential Convention.

Occident.

As has already been announced, Budd Doble will arrive from the East during the latter part of next week with a fine stable of trotting stock. Among the number comes Occident. The "California Wonder" has failed to distinguish himself during his Eastern tour, disappointing not a few who were led to expect a series of brilliant performances in the promised contest with Eastern flyers. The cause of this disappointment is said to be the result of an operation performed on Occident's feet a short time prior to his departure from this coast. It was believed by a number of prominent turfmen that Occident could easily beat his best record if his hoofs were broadened. According to the hoofs were cut down considerably, and by means of screws placed in the frog it was expected to accomplish the desired object. The operation was supposed to have been successful until the animal was placed in training on a Philadelphia track. Here he exhibited unmistakable signs of lameness, and was thus prevented from taking any part in any of the races. The lameness still manifests itself, but experts say it will soon disappear and leave the horse in a good, if not better condition than ever before. Since Occident has been East he has been exhibited at Mystic Park, Boston, and at the race courses at Buffalo, Utica and other prominent cities.

The Eastern papers think that Carl Schurz' presence upon this stump in Ohio for the Republican hard money platform, will turn the current in favor of Hayes and elect him.

JOHN SUNDHOLM STILL AHEAD.—John Sundholm has just returned from San Francisco with the largest and best selected stock of books and shoes ever brought to Reno. He has goods to suit all prices and all people. He has a fine assortment of children's school shoes, which give more satisfaction than any shoe ever brought to this town. He is selling boots and shoes at panic prices. Call at his store and examine for yourself. He has also on hand and for sale, a fine assortment of shoemaker's findings, which he offers to the trade at a small advance over San Francisco prices.

NEVADA STATE ITEMS.

The enterprising Chicagoans are wading up to the value of Nevada silver mines viewed in the light of paying investments. A party of Chicagoans are now making a business tour of the State buying wherever they think the prospect warrants a purchase. They were lately at Winnemucca and it is reported they have purchased the Maine ledge in Sierra District.

The Belmont M. Company have curtailed their force of miners. The sinking of the main perpendicular shaft is all the work that is being done in the mine at present. Another level is to be started as soon as sufficient depth is attained.

The graders on the Eureka and Palisade Railroad are now within fourteen miles of town. This is the advance guard, as it were, but the whole line is coming on rapidly across the valley.

Cord wood is selling in Eureka at \$10 a cord, an advance of about twenty per cent. upon the price at this time last year.

The total population of Nye county foots up 1,750.

The new New York post office is finished and opened for public use. The business of this office is immense. Three hundred thousand domestic letters are received and distributed daily, and about thirty thousand foreign letters are received and about thirty-five thousand dispatched. Six hundred clerks are continually employed, exclusive of those delegated to the different stations. Three hundred and ninety carriers are employed. The new office in the lower part of the City Hall Park, covers 840 feet on Broadway, 820 on Park Row, 200 on the north and 180 on the south side. It is built of granite, with chateau roof, and at the height of 105 feet is surmounted by a lantern. Congress has appropriated \$8,000,000 toward the erection of this office building. The third and fourth floors are occupied by the United States courts and offices. "It may not be generally known that so important is this New York office to the country at large, that it stands upon a separate and distinct basis from any other office in the country. In importance the position of postmaster of this office ranks next to that of the officials at Washington, and separate regulations are enacted for its government. The salary of its postmaster is nearly equal to that of a cabinet minister."

A fact which is very creditable to German intelligence and character is, that among the hundreds of German papers in the United States there are only two that advocate inflation of paper currency. These are the Cincinnati *Volk's Friend* and St. Louis *America*. It is becoming more and more apparent that the Independent press of the nation will do battle for the hard-money cause, no matter which party espouses it, and against the party of inflation, repudiation and national dishonor, no matter what that party may call itself. The Chicago *Times* and *Tribune* are daily hitting Senator Logan's inflationist organ hard blows. The Cincinnati *Commercial* is in conjunction with the Republican papers, fighting the rag money party in Ohio; and the *Herald*, the *Tribune* and the *Post* of New York, the Springfield *Republican*, of Massachusetts, and Philadelphia *Times* are all fighting against the same party.

SELLING OFF AT COST.—Mrs. McNeely offers her entire stock of goods for sale, at cost, for cash. The ladies of Reno and vicinity will do well to call early and secure bargains, which will be had for cash.

REMOVED.—The Misses Vance are now located on Virginia street, next door to the photograph gallery. They will receive at their dressmaking establishment and make to order in the latest styles, all kinds of plain and fancy sewing.

THE ALTAR.

BYUS-LUPIN.—At the residence of the bride's parents, near Reno, September 25th, 1876, by John B. Gilman, J. P., Mr. Josie Byus to Miss Mary Elizabeth Lupin, all of Reno.

TOMB.

EDWARDS.—At Truckee, September 26th, 1876, Walter Scott Edwards, a native of Nevada City, Cal., aged about 30 years.

NEW TO-DAY.

IN THE SECOND JUDICIAL DISTRICT Court in and for the County of Washoe, September 27th, 1876, in the matter of the estate of H. B. ALLEN, deceased.—The petition of A. O. Ellis, Administrator in said estate having been presented to me, and it appearing to me therefrom, that it is necessary to sell the real estate belonging to said estate for the purpose of paying the debts, expenses and charges of administration. It is therefore ordered that all persons interested in said estate, be and appear before the District Court, in and for the County of Washoe, at the Court House at Reno, in said county, on Saturday, the 30th day of October, 1876, at 10 o'clock A. M. of said day, and show cause why an order should not be granted to the Administrator to sell the real estate belonging to said estate at private sale. Given under my hand this 27th day of September 1876.
